

Placing his dog on the edge of the pier, the man hastily launched himself into the air and the animal tumbled into the water. Pedestrians hurried to the little cannie to the police station where the fractured leg was mended and the dog given into friendly hands until Kieran would return.

**KING MANUEL AND HIS MOTHER SAFE WITH THE BRITISH IN GIBRALTAR**

**Will Make Their Home in England; New Republic Gives Out Its First Declaration of Principle**

(Continued from Page 1)

longer considers himself the minister of Portugal, regarding the proclamation of a republic as a formal severance of his obligations.

"I will not serve this republican government," he says. "Not because my opinion is retrograde—I lived too long in the United States for that—but because I do not believe that Portugal is ripe for the application of such liberal ideas. The population is ignorant and exposed to all kinds of political temptations."

UNSETTLED VIEWS.

"A republican government in Portugal would be composed of men of unsettled views, unprepared for the power entrusted to them, divided over questions of doctrine as well as by personal rivalry and ambitions."

"Frankly, I consider the revolution a great misfortune. The establishment of a republic will give birth to the gravest problems, chiefly because of the juxtaposition of the monarchial Spain. The result must be either Spain will become a republic too, or that she will be forced to self-protection by intervention."

"The triumph of republicanism in Spain would probably result in the establishment of an Iberian republic, which would inaugurate a new and grave factor in the European concert question."

"The question of the Portuguese colonies is still more important. Every one knows that there already formed a subject of diplomatic exchange of views between Germany and England and in this connection the words 'secret understanding' have even been pronounced. Recent events bring this matter to a head. Unquestionably, the new rivalry aroused by the opening of such a question and by the result of the transaction which would follow, would be unfavorable to the maintenance of peace in Europe."

"Incidentally, it is not hard to guess at whose expense any such transactions over the Portuguese colonies would be carried out."

**Revolutionists Seek Support of Entire Country in Struggle**

PARIS, Oct. 7.—Dispatches received here from various towns in the outlying Spanish provinces indicate that the revolutionary leaders in Lisbon are doing their utmost to secure the support of people in all sections of the kingdom. One of the first acts of the central committee, which was constituted at the beginning of the outbreak, was to send out trustworthy emissaries by automobile to various distant points, where it was hoped a sympathetic uprising could be produced.

The Republicans appear to be masters of a section within a radius of about fifty miles from Lisbon. In this district they are in absolute control and will not allow monarchist sympathizers as much as stir from their home towns. The railroads are at a standstill and in the neighborhood of Lisbon most of the highways are either barred or rendered impassable of large influence.

SUCCESS IN DOUBT.

The opinion in London appears to be that the Portuguese revolution is a revolutionary movement is still in doubt, depending upon the attitude of the provinces. Oporto's position in the matter will be of large influence.

**Barcelona Eager to Learn Fate of the Portuguese Kingdom**

BARCELONA, Oct. 7.—The course of events in Portugal is being followed with the keenest interest in the clubs and cafes of Barcelona and every place of news that is allowed to filter through the rigorous Spanish censorship is eagerly discussed by animated groups of citizens. Several of the newspapers, in response to the public demand for bulletin information, installed screens on the fronts of their buildings on which they intended to throw lantern-slide dispatches. Their plans were set at naught by the authorities and in some instances the civil guard was forced to charge mobs, which gathered at the newspaper offices.

The official information of the Spanish officials here declares that the old government still exists in Portugal, despite the formation of the provisional government by the Republicans. At the same time officials insist that the Portuguese army outside of Lisbon remains faithful to the King, but it is privately pointed out that even so, it will be impossible for the monarchist regiments to do anything effective as not only the railroads but also the highways and even the foot bridges have been destroyed by dynamite in all directions from the capital.

**American and British Ships Salute Members Of Downfallen Monarchy**

GIBRALTAR, Oct. 7.—The American cruiser Des Moines and the British fleet, with ships dressed and flying the Portuguese flag at the mainmast, fired a royal salute today in honor of the members of the Portuguese royal family, who have found refuge here.

A royal salute was fired also by the Rock battery.

Last night's report that King Manuel and the queen mother came ashore and were driven to the summer residence of the governor is incorrect.

The Amelle, with the King, the Queen Mother, the dowager Queen Maria Pia and Prince Alphonso, the Duke of Oporto on board, dropped anchor in the harbor at 11 o'clock last night.

Lieutenant General Sir Archibald Hunter, British governor general of Gibraltar, accompanied by his official staff, boarded the yacht Amelle today and formally welcomed King Manuel to British shores.

**England to Protect King Manuel and His Entire Family**

LONDON, Oct. 7.—King Manuel of Portugal, who has been driven from his country by revolution, with others of the royal family, is today under the protection of the British government.

The Portuguese minister here received a telegram from King Manuel, in which his majesty says the Queen Mother Amelle, the Duke of Oporto, and he, arrived safely and in good health at Gibraltar on the yacht Amelle.

King Manuel, in his message, made no reference to the revolution or to his future plans.

The general expectation is that the Portuguese King and Queen Mother Amelle will find a permanent refuge in England, where the Duke of Orleans and the Queen Mother's sister reside.

It is believed the royal family will be lodged temporarily quarters at Gibraltar, one of the official residences being placed at its disposal.

**PAVILION BOAT LANDING TO BE BUILT ON LAKE**

**Park Commission Plans Structure to Beautify Merritt Shore; Bids Received for New Cement Sidewalk**

The erection of a pavilion boat landing on Lake Merritt at Nineteenth street was decided upon by the Park Commission at its meeting yesterday afternoon. The boat landing will be of ornamental type and will conform to the general style of architecture of structures in the Oakland system of parks, both in construction and in design.

It is probable that the new boat landing will cost about \$2500. It is planned to clear the outlet of a big storm sewer at this point, and will mean a distinct improvement in the appearance of the lake shore. Walter D. Reed, city architect, has been asked by the Park Commission to draw up plans and specifications for the boat landing.

BIDS FOR SIDEWALK.

Bids were received at the meeting yesterday for the construction of 10,000 square feet of cement sidewalk along the western shore of Lake Merritt. The bids

of J. R. Sorensen and Harry B. Wilkins, both of whom offered to do the work for 9 1/2 cents per square foot, were identical and as they were the lowest bids offered were submitted to City Attorney John W. Steenson. This is the first case on record where the offering of two identical lowest bids has occurred. The city attorney will advise what course must be taken.

NEW TENNIS COURTS.

Secretary Henry Vogt was authorized to advertise for bids for the construction of two standard asphalt tennis courts in Lakeside Park. They will be erected near the baseball grounds, and will be of first-class construction, the asphalt topping being laid on a 4-inch deep concrete base. Steel frames and wire will surround the courts, the cost being approximately \$3000.

The commission granted the application of the Boys' Retreat band for permission to give two concerts at the Madison and De Fremery parks this month.

Christina, Queen Mother, is preparing to give up her residence at the Oriente Palace, where King Alfonso lives, and take up an abode in another part of the capital. It is understood that the Queen Mother decided upon this plan in an effort to convince the Spanish people that she really is not exerting a reactionary influence over her majesty. It is not known whether the idea is the Queen's own or whether it was suggested to her by her son's advisers.

**Queen Mother Was First to Flee From Royal Home in Lisbon**

LISBON, Oct. 7.—The Capital, a Republican newspaper, gives the following description of the flight of the royal family:

"At 5 and 8 o'clock Wednesday morning the Duke of Oporto embarked on the yacht Amelle and sailed for Ericeira, a fishing town, 25 miles northwest of Lisbon.

"The large force of volunteer soldiers which was recruited at the beginning of the uprising and was furnished with arms from the government's reserve supplies, is being disbanded. The volunteers are returning the weapons which were secured in the name of the revolution. While Candido Reis, one of the leaders of the revolution, has committed suicide, but no details of his rumored death are available."

REVEALS ALARM.

Her decision to quit the Oriente Palace reveals the extent of the alarm with which the royal family views the future. The Queen Mother, who is a woman of repressive, tyrannical, and out of date in Spanish politics and the country knows it. Her domination over Alfonso is almost absolute and in her turn she bows to the will of the clerical leaders. While she remains in Spain nothing can be expected from the present King in the way of a democratic or republican reform, in the opinion of advanced thinkers.

**Dancer Denies She Was Cause of King Manuel's Downfall**

VIENNA, Oct. 7.—De Slys, the French dancer, whose name has been connected with that of King Manuel, who is said to have showered gifts upon her, is denying a scandalous charge made here. She says she is innocent of the stories that King Manuel supported her and that Portugal is suffering from his extravagance on her account. She said yesterday:

"I am making \$250 a night dancing and am richer than the king, perhaps. I know no disgrace in being the sweetheart of a king, but I would consider it an everlasting disgrace to advertise our relationship, glorified as it was by a love which even court and conventionality could not throttle."

She went on to say that when she went to Lisbon in February to perform at a charity concert she stayed at a hotel and not at the palace. She was introduced to Queen Amelle. She never received anything from King Manuel but small tokens of affection. She received a letter from him recently, she added, in which he said he hoped to meet her in Paris in October.

**Diplomats Tender Respects to Head Of New Republic**

LISBON, Oct. 7.—The republic of Portugal was virtually recognized today by the foreign diplomatic corps stationed here.

Various ministers, headed by Sir Francis Villiers of Great Britain, called upon the provisional foreign minister, Dr. Machado, and tendered their respects and received assurances of the new administration that treaties and the rights of foreigners in Portugal would be protected.

It was announced that the deposed King Manuel and his mother, the Dowager Queen Maria Pia and Manuel's uncle, the Duke of Oporto, would be exiled, but that their personal property

**HERBERT BRANDS SANITARIUM HEAD REDDING'S OPERA GREAT WORK LODGED IN JAIL**

Held for Connection With An Illegal Operation Which Brought Death.

Noted Composer Enthusiastic Over Californian's Latest Work.

PHILADELPHIA, Oct. 7.—Joseph R. Redding, known to every Californian of literary and musical tendencies and the author of many librettos that have achieved fame before the Bohemian Club, is maker of an opera "book" to which Victor Herbert is composing the music. Redding is a Californian whose work is known in this city, and the East Alameda as well as in a native state and his friends look forward to the presentation of "Natoma," the title of the new work. Speaking of the work recently Victor Herbert said:

BRANDS WORK GREAT.

"Although I did not realize how heavy a task I had taken on when I agreed to compose the music to Mr. Redding's beautiful libretto, my enthusiasm has never waned. I believe the rare opportunity has been given me to present to an American audience a truly grand opera."

"When I was studying years ago in Germany and France, I observed how the audience followed each note of the music and its application to every word of the lyrics. This is not the inevitable custom here, where the heavier operas are given in a language foreign to the majority of the audience."

"I hope that each note of music in 'Natoma' may come over the footlights and fall upon the ear of the listener, bearing with it the full value of the word to which it is added. If this can be accomplished, then I feel sure that our audiences will experience a genuinely novel pleasure as patrons of grand opera."

Uppel is placing the work in rehearsal. The first performance will take place in Philadelphia Monday, February 6, 1911. The cast and date of initial performance are to be announced soon.

would be respected. This was an unexpected concession by the republicans.

King Manuel at first wanted to stay in Lisbon and fight, but his advisers forced him to flee.

When the Neoclassical palace began to crumble under the shells of the republican-manned warships and forts Manuel fled by means of a secret exit and went to Mafra, north of Lisbon. Queen Amelle and Dowager Queen Maria Pia, then at Cintra, joined Manuel at Mafra. The Duke of Oporto remained hidden until Thursday, when he boarded the royal yacht Amelle and sailed to Ericeira, near Mafra. Manuel and his others, guarded by students of the Mafra military school, went to Ericeira.

On the way the young king wept constantly and threatened repeatedly to return. He was dissuaded by his mother and the party boarded the royal yacht. The little craft sailed at 4 o'clock Thursday afternoon and reached Gibraltar at 11 last night.

Today they were guests of Sir Francis Forrester Walker, governor of Gibraltar.

During the absence of Mrs. E. Farley from her home at 1137 East Fifteenth street last night, burglars entered the place by breaking open the front door or using a skeleton key and looted the lower rooms in the house. A long gold chain, some small jewelry and \$54 in money were taken. The total value of the loss is \$70.

The theft of a buggy harness valued at \$15 is reported to the police by John Westphal of the Bay City Flour Mills. The harness was taken from the company office or stable yesterday.

## Improvements in Oakland

**Many Miles of Streets Oiled by City Department and Work Ceases to Be Resumed After Winter Months**

The Street Department under Commissioner Howe, has completed the oiling of a large number of streets in both the named territory and the old city proper. The work is now being closed up for the season, but will be resumed in the early spring. Mr. Howe states that the work has been very successful. The heaviest class of road oil containing about 85 per cent of asphaltum, has been used, and the streets treated have now taken on the appearance of a regular asphalt or bitumen street.

There has not been one instance of failure, all the streets treated having turned out as anticipated. Particular attention has been paid to the oiling of the streets on steep grades, as this obviates the necessity of sprinkling these hills which is a source of great expense to the Street Department. A large number of the old macadam streets in the city were built of rock from the Laundry Farm and Cordelia quarries, which it was almost impossible to pack with the screenings used, and therefore these streets were always covered with loose rock and in bad shape. Most of these streets now have been treated with oil, and this difficulty has been overcome.

The following is a list of streets oiled: Fourth avenue, from East Twelfth to East Fifteenth streets.  
Portions of the following streets: Van Dyke avenue, Chicago avenue, Portland avenue, Spruce street, East Twenty-second street, East Twenty-first street, East Nineteenth street, East Thirtieth street, East Twenty-ninth street, East Thirtieth street, East Twenty-third street, East Twenty-fourth street, East Twenty-fifth street, Eleventh avenue, Belfair avenue, Everett street, Division street, Lindwood street, Elston street, Woodland street, Ardley street, Randolph street, Fourteenth avenue, Brighton street, Belmont street, Greenwood street, Campbell street, Twenty-ninth street, Orangetown street, Hamilton place, Stanley place, College avenue, Claremont avenue, Adeline street, a canopy avenue, Adeline street, Martin street and Forest street.

This aggregates six miles of roadway oiled during the season. In the annexed territory a great many of the streets in Elmhurst and Fruitvale have been oiled.

## NEW CHARTER NOT TO MAKE RECALL TOO EASY

**Secretary Encell of Freeholders' Board Corrects Statement About Document.**

**MAN SOUGHT TO BE OUSTED HAS REDRESS.**

**Explains Provisions in Articles and Says They Are Just.**

**EDITOR TRIBUNE.** In your editorial last evening entitled "The Proposed New Charter," urging upon the citizens to read and digest the charter itself, there occurs a mis-statement of fact which, in the interest of a fair review of the charter, you will desire to correct with as much publicity as you can.

The specific question of his recall, secondly, if such officer is so recalled, that no successor can be elected unless he gives a majority of all the votes cast at such election thirdly, that if no such majority is received a second election at which the two highest at the first election are the only candidates (excepting the one instance of a tie vote when it would be three instead of two) placed upon the ballot for the second election. All these provisions necessitate a majority choice and absolutely prevent a minority depriving a man of an office.

### OFFICER HAS REDRESS

In addition to the above, it will be noticed by referring to Subdivision (6) page 12 of the same article that before any such petition can be circulated, the officer sought to be recalled has the opportunity of formulating his reasons why he should not be recalled, which reasons must be read by any party signing a petition for his recall, further, that the last paragraph in said subdivision (6) provides that the life or such a petition is but forty (40) days, thus necessitating that the issue be fought out at once and not held over any officer's head for an undue length of time.

I wish to call your attention to another error which occurred on page 16 of THE TRIBUNE of the 16th instant. Instead of twenty-five (25) per cent, as therein stated, being necessary to initiate a subsequent recall proceeding against the same officer thirty (30) per cent of the entire vote cast for mayor at the preceding general municipal election is necessary to institute such proceeding.

Furthermore fifteen (15) per cent of the entire number of votes cast for mayor at the last preceding general municipal election is the percentage necessary in the initiative and not ten (10) per cent as stated on the same page of your paper in the same issue.

Yours very truly,  
HARRY A. ENCELL,  
Secretary of the Board of Freeholders

## TRIES TO MURDER SISTER-IN-LAW FOR MONEY

**Syrian, Who Is Former Convict, Fires Three Shots at Woman.**

(Continued from Page 1)

not right that he should be treated this way. He is not at home so much of the time, and while he is away Mary is out carousing and drinking wine with other men. I have stood this too long and this morning I decided to uphold the honor of the Kafour family and took the law into my own hands. Yes, I shot her but I do not know whether that the revolver or not. I only remember getting a revolver from my bureau drawer.

### SAYS JEALOUSY IS CAUSE

Mrs. Kafour made the following statement to Detective Harry Green at the police hospital after the shooting. This attack upon me is the result of jealousy on the part of Abraham Kafour. He was never at any time in love with me nor did he ever love me, but it was a way to make him angry if any man came to the house whether he was a friend of my husband or of mine. This morning he seemed to be more excited than usual and after Pete my husband had gone to his work Abraham came back to breakfast about 7:30. He said that he couldn't stand being around the house any longer and that he was going away and asked me to let him have \$10 which I was keeping for him.

### BATTLES FOR LIFE.

I gave him the money and then he said that \$10 more was coming to him from the railroad and that if I would give him the \$10 he would let Pete have an order for it. I would not do this and all of a sudden he became angry and rushed out of the room. I got up but he met me at the door with a revolver in his hand and he said to me, "I'll shoot you." He shouted after he had pulled the trigger twice I grabbed the revolver and in some way damaged the weapon so that it would not work, although he kept pulling the trigger. He then grabbed me by the throat and tried to choke me. I got my thumb between his hand and my neck and managed to keep from stopping my breath and he struggled until I became unconscious.

### CALLS HIM CRAZY

J. A. Kafour (the third brother said) The man is crazy. He came over to my house last night. He appeared to be nervous and nervous and said he intended to shoot me. He went to the Soledad ranch. He is a dangerous man and after he had been released from San Quentin he became as quarrelsome as ever. According to Mrs. Kafour's story her brother-in-law threatened to take his own life by means of poison, when he was

in piano purchasing is determined by three factors--the quality of tone--ease of action--permanency of construction. All pianos are apparently good when you examine them on the floor of the salesroom. Otherwise they would not sell to begin with. But the question is what is my piano to be like a few years hence.

If you choose wisely now—consider the reputation of the house and the lasting values of the piano under consideration, but one result can follow. A dependable piano is the reward of your forethought. Our business success is due entirely to square dealing and a sufficient variety of grades to meet any pocket book and give the best value possible for the amount invested. ## FIGURATIVELY THROWS NICKEL IN GUTTER

Waste of Money Arouses Ire of Old Gentleman, Who Points the Way to Savings Method.

"Say, can you tell me why you just chuck that nickel in the gutter?" said a neatly dressed old gentleman to a prosperous individual just leaving a cigar store.

"What nickel? I didn't throw any nickel into the gutter that I know of," was the answer.

"Didn't you just buy two cigars for a quarter?"

"Sure, but I didn't throw away a nickel."

"Yes, you did. You could've got 'em at Osgood's, the drugist, for 20c and you paid two dimes."

"Couldn't get cigars like these at any cut-rate place," was the rejoinder. "I'd like to see Osgood or anybody else match these cigars for a dime, and he held up a rich, oily Optimo of an unusually select type. 'They may sell Optimos for a dime, but not this kind, my friend.'"

The old gentleman looked at him a moment, evidently stating him up. Then he said: "My friend, you look like a reasonable fellow and no doubt you think you are right, but as I am about to go over to Twelfth and Broadway to get a couple of those cut-rate Optimos I wish you'd come along and have one with me."

The younger man assented and they walked into Osgood's Drug Store and the old gentleman asked for some Optimos. Osgood also, for this was what his newly made friend was smoking. The clerk brought down three boxes and in the second box he opened there lay the identical cigar and shape that the younger man had just paid 12c for.

"You don't sell these for a dime?" he questioned.

"Yes sir, all bit goods are sold here for a dime," answered the clerk.

"Well, I'll be damned," was his said, and as he walked out the old gentleman handed him his card.

"I made my money watching the pen and the nickel and dime," he said. "Even as you probably know, some valuable property in this town and that is how I got it. Smoke if you must but don't let them sting you for a nickel every time you buy a quarter's worth of cigars."

In regard to placing another man at the station to assist in handling the large quantities of freight that the merchants of the town are receiving every day, the superintendent of the western division made a personal visit to the spot and as soon as he saw how congested with goods the place was becoming he immediately appointed a man to the position of assistant agent.

## RAINS THREATEN DAMAGE IN SOUTH

Many States Deluged, Traffic Delayed and Serious Harm Forecast

LOUISVILLE, Ky., Oct. 7.—Deluged by the heaviest continuous rain fall in some places for forty years, a wide strip of country extending from eastern Texas across the northern portions of Louisiana and Mississippi and over portions of Arkansas, Tennessee, Kentucky, southern Indiana and Ohio, almost to Pittsburgh, is a sea.

While the rain continues in the northern part of this great area, the storm has not yet reached the coast and has been followed by a cold wave that has dropped temperatures from 25 to 40 degrees in twelve hours.

Washouts on railroads in Kentucky and Tennessee are numerous. Many trains are off schedule; the delivery of mail on rural routes has been abandoned in some quarters, and there has been much damage to farm lands and corn in the shock.

The heaviest rainfall in eight years, more than four inches in the last forty-eight hours, threatens serious damage along the valley of the Soloto river, in which the water is rapidly rising. The local weather bureau has sent a flood warning. Yesterday afternoon the Standard Chain Company shut down its plant because of high waters. The company is moving prisoners who are located at the Ohio penitentiary, which is located only a few feet from the west bank of the river.

## LOST MINE OF MEXICO FOUND

Believed to Be Famous Santa Teresa; Skeleton Found in Shaft.

HERNANDEZ, Ariz., Oct. 7.—Mexican officials at Cananea yesterday announced the rediscovery of the old Santa Teresa gold mine, one of the few really "lost" mines of the southwest, which was known to have been worked by the Spaniards more than a century ago, and which has been lost to the ken of civilization since 1810.

Examined makes it appear probable that the renowned shaft is none other than the famous Santa Teresa. It was discovered by a vaquero while riding over an isolated part of a cattle range a few days ago. The main shaft was well preserved, but the timber had been removed and the earth caved in. Two skeletons were found at the bottom of the shaft. Indians had kept possession of the mine so long that its location had become a mystery to the Mexicans. The Mexican government is now making arrangements to take charge of the mine.

## GERMS IN HER SYSTEM

Every Woman Should Read This Advice and the Generous Offer That Goes With It.

The number of diseases peculiar to women is such that we believe this space would hardly contain a mere mention of their names, and it is a fact that many of these diseases are of a catarrhal nature. A woman cannot be well if there is a trace of catarrh in her system.

Some women think there is no help for them. We positively declare this to be a mistaken idea. We are so sure of this that we offer to supply medicine absolutely free of all cost in every instance where it fails to give satisfaction. With this understanding, no woman should hesitate to believe our honesty of purpose, or hesitate to put our claims to a test.

There is only one way to overcome catarrh. That way is through the blood. You may use all the snuffs, douches or like remedies for years without getting more than temporary relief at best. Catarrh in general is a diseased condition of the system that shows locally most frequently in discharges from mucous membranes. Local treatment should be assisted by internal treatment for the general diseased condition if a complete cure is to be reached. That internal treatment should be scientifically devised and faithfully administered.

REXALL MUOU-TONE is scientifically prepared from the prescription of an eminent physician who for thirty years made catarrh his specialty. This remedy is admirably adapted to the treatment of the catarrhal ailment of women. It purifies and enriches the blood, tends to remove discharges, aids in removing impurities from the system, soothes, heals and strengthens the mucous tissues, and brings about a feeling of health and strength.

We want you to try REXALL MUOU-TONE on our guarantee. If you are not benefited, or for any reason not satisfied, simply tell us and we will hand back your money. REXALL MUOU-TONE comes in two sizes, 50 cents and \$1.00. Remember, you can obtain REXALL Remedies only at The Owl Drug Co. (Inc.), 10th and Washington, 13th and Broadway, 18th and San Pablo.

# Famous 'Nemo' Corsets Now at Hale's

Tomorrow sees our Grand Opening Event in "Nemo" Corsets, famous the world over. A "Nemo" for every figure, combining style, comfort, and the latest hygienic corset inventions, fitted by expert corsetiers at Hale's. Come and examine these wonderful "Nemos" Saturday.

**For Short, Stout Figures No. 523—\$5**  
"Nemo" No. 523, with its wonderful Lastikops Bandlet, is the greatest corset success of the age—has no equal as a figure-reducer. But it isn't quite suitable for a short stout figure; so we have made a new model—No. 523 at \$5.00—especially for stout women who are short-waisted. Has the same Lastikops Bandlet, is made of fine white coutil; low bust, long hip; sizes 20 to 40—\$5.00.  
No. 523 is a similar model, but for tall or medium stout figures—\$5.00.

"Nemo" Corsets, added to our already strong line, places Hale's in the forefront as a leading headquarters for the best corsets made. Besides the Nemo we carry Hale's famous Nadia, Thompson's, the W. B., R. & G., C. B., Ultra Smart and G. D. corsets—makes known to women the best of all corsets offered anywhere. Two of many "Nemo" models are noted here. Corset Department, basement.

**For Slender Women Model 330—\$3.50**  
Not every woman needs abdominal reduction; but all women who wear corsets need abdominal support.  
Lots of slender women are buying Nemo Self-Reducing Corsets Nos. 522 and 523 in the smallest sizes (20 and 21); and there have been thousands of calls for sizes 15 and 19. This proves that a host of slender women are willing to wear a corset that is not designed for slight figures in order to secure the perfect support of the Lastikops Bandlet. And now, thanks to our great invention, Lastikops Webbing, slender women have a perfect supporting corset all their own—as great a god-send as our Self-Reducing Corset is to stout women.  
Come to Hale's and ask for Nemo No. 330. When you put it on, you'll say: "What comfort!" Such a grateful sense of support—none of that cramped, bearing-down feeling, no matter how tightly you lace it.

# Women's Pure Silk Hose

## 79c Pair A Star Event Tomorrow

The trouble with some brands of silk hose is the possibility of quick wear. In purchasing silk hose for Hale's, our buyer makes a particular note of durability, and we carry silk hose that will give the greatest possible wear, considering the price at which we offer them.  
Tomorrow we offer a line of silk hose made of a pure silk thread, full fashioned with durable hile sole and deep hile garter top. Manufactured to give good wear and at 79c a pair certainly an exceptional quality. Of a very fine silk and quite sheer.  
A wide range of colors, including black, white, tan, navy, sky blue, pink, smoke, gray, old rose, champagne, wine, emerald green and cadet blue. Sizes from 8 1/2 to 10.

## Children's Strong "Neverdarn" Hose

**Box of 6 pair 95c Formerly \$2**

# GREEKS RETURN TO NATIVE LAND

Brothers Immune From Punishment for Beating Man; Supposed Victim Dead.

CHICAGO, Oct. 7.—A flight from justice that extended over 200 miles and ended with their arrest in Chicago, is to be retraced by Panos and Georgios Javelos, Greek farmers, on transportation supplied them by the United States government.  
The Greeks fled their native land because they believed they had killed a man, but they are now anxious to return because they have learned that their supposed victim is alive and is willing to grant them immunity from prosecution in return for a price.  
The Javelos brothers on September 1 met a neighboring farmer named Poulos in Tripoli, Greece, and the three became engaged in an argument over grazing lands. The brothers beat Poulos so severely they believed him dead. Then they fled.  
On October 5 they were arrested by an immigration inspector, as undesirable citizens. The brothers were arraigned before United States Commissioner Route yesterday and expressed willingness to return to Greece. They received a letter from Poulos which stated he was recovering from the beating and was willing to allow them to return home in peace if they would give him about \$200.  
The Greeks leave Chicago on their return trip tonight.

Y., Oct. 7.—Six convicts made a sensational escape from Sing Sing prison today, after beating one keeper into unconsciousness and locking and guarding another, they removed an iron bar from a window and lowered themselves to the ground by a blanket cut into strips. The students and their friends will be in attendance and according to the manner in which the tickets have been sold the gym will be filled and a neat sum will be realized for the girls' Aegis. Joseph Hunt will be manager of the finances.

The program for the evening will consist of dancing, singing and individual stunts. It will be in part as follows:

Miss Helen Tupper, who starred the Klimes as Sonia in the "Merry Widow," will render a solo.

Harold Baxter and William Allender will do a musical turn, consisting of piano and vocal solos and songs.

A chorus directed by Edward Kito, consisting of seven couples, will sing and dance. Those who take part are Grayson McPike, Doris Badgley, Harold Baxter, Alice Elliot, Beth Hoyt, Clinton Warden, Edward Kito, Rita Schrock, Helen Brock, Lloyd Gilmore, Mildred Wells, Leslie Stephens, Olive Hamlin, Margaret Garthwaite.

The songs are: "I Want Someone to Flirt With Me," "Meet Me Where the Lanterns Glow," and a big final scene with a tableau representing "the spirit of '76," and the chorus singing "Star Spangled Banner," with a large American flag in the background.

Joseph Hunt and Carlton Dethlefsen are to put an act consisting of cross-fire comedy and songs. They have well-trained voices.

Another act, known as "The Bride and Groom Stunt," promises to be a treat to all. The main players are Priscilla Hall, Gaylord Mitchell and Will Elmore.

#### Original Stories By Young Authors

"Golden Locks."

(By MARJORIE HUNTER, aged 9.)

One day there was a little girl named Golden Locks who had gone into the woods to gather wild flowers. While she was resting a man came along and spoke to her. Golden Locks at first was very frightened, but she felt safe when she saw her mamma step out from behind a large oak tree. The man happened to be her uncle who she had never seen and had come from the far west to visit her home.

## Tailored Suits

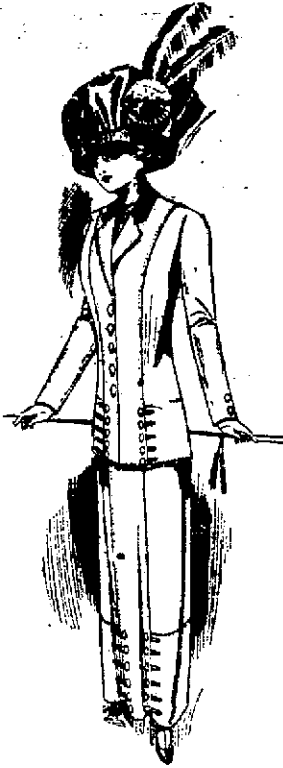

## A Special Line At \$25

Twenty-five dollars is a very small price for suits as fine as these. We have seldom—if ever—known suits of equal elegance to be sold at the commencement of a new season for so little.

The styles are the cleverest of the clever new ones for autumn—the fabrics are both beautiful and fashionable—the colorings are new and choice—the tailor work is all that the most critical woman could desire—the linings and trimmings are of superior quality.

In fact, the only thing about the suits that looks like twenty-five dollars is the price. After seeing them, we are sure you will agree with us that they are equal in every way to any other store's thirty and thirty-five dollar suits.

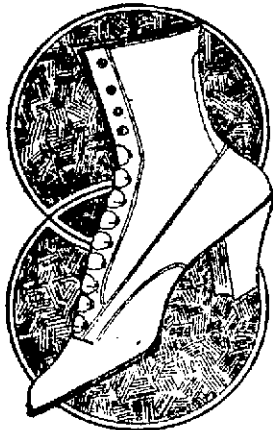

DAILY ARRIVALS OF NEW TAILORED SUITS keep our assortments full and complete. We have every successful model of the season, and you may come to our big Suit Department with full confidence that you will find just the suit you want—just the style—just the fabric—just the color, and you will find it at a price you will be glad to pay.

CAUSE OF COMPLAINT

Clubhouse Also Wanted, Says  
Editor; Blood Poisoning  
Attacks Pupils

One of the strongest editorials that has ever appeared in the Aegis, the official organ of the Oakland High school, was published in the last edition of that journal, which circulated in the school last Tuesday.

It touched upon the necessity for an athletic field for the students of the school and a bitter complaint bearing upon the condition of the dressing-room, which is located on the site where the boys practice.

The following is the editorial, which has caused considerable gossip among the student athletes:

It has long been known to the Oakland Board of Education and to our high school that the athletic field and clubhouse promised us has failed to materialize. If some arrangement is not made for this in a short time, our sports will surely die.

This ought not to be permitted. What is a high school without athletics? Every high school in the United States has its teams of which both students and school board are proud. You will also find that in most of these schools a large piece of ground is set off for the use of different athletic squads. Look at the Seattle, Portland and Tacoma high schools! They have excellent grounds and splendid paths, maintained by the city. What has Oakland high?

A two by four lot (which is loaned gratis by its owner), on which is laid out a track so small that a runner at the end of a four-forty yard dash is dizzy from the curves. On this lot is a dressing-room, fifteen by thirty feet, which, at the end of every day's practice, must accommodate seventy boys at a time. The doors have been torn off and windows broken by the hoodlums who live in the locality. The floor of this shack has not been touched by a broom since its completion in October, 1909. The showers which the building practice from 3:30 to 6 p. m., so that they have no time to clean it. Even if they did have time they have neither implements to work with nor money to buy them. Conditions are so bad that the sanitary department ought to take notice. But the filthy condition of the dressing-room is not the only deplorable condition about our practice grounds; the unhealthy marks on which the football team trains has caused no end of trouble and sickness to the members of the team. These grounds are submerged by a stagnant water from the first of November to the middle of May. Every time a player falls and cuts himself the wound is infected and blood poisoning is the result. Two weeks before our most important football game with Berkeley high last year, eight of the eleven men were suffering with some form of blood poisoning. One man was so serious that an operation was necessary, and three weeks in the hospital were required for its cure. At the present time the most needed man on the team is out of the game with a serious case of blood poisoning. It can plainly be seen that Oakland high has a well-grounded cause for complaint. Let us hope that those who are responsible for this trouble, expense and illness will see that the existing conditions are soon changed for the better.

IDENTIFIED YIELDING  
FORTUNES IN GOLD

SEATTLE, Wash., Oct. 7.—Miners who arrived from Alaska on the steamship Jefferson yesterday report that the placer diggings at the head of the Flat creek, in the Iditarod, have yielded fabulous amounts of gold in the short time they have been operated. For instance, a man, who was subsequently struck by lightning, has been reported to be the luckiest man in Iditarod, the value of his claims being estimated at \$50,000. A clean-up of gravel on one of his claims August 24 yielded \$40,000, the ground averaging \$12 a foot. George F. Field, Frank Lawson and Bennett James, Fairbanks miners, are working claims on Flat creek, but promise to yield \$750,000. Doc Madril made a clean-up of \$12,000 in one day on Willett creek. The big claims are working the largest possible crews to take advantage of the few remaining days of the season.

# ATTEMPTS TO SHOOT TREADWELL HEIR IS CHINESE PRINCE DIVORCED IN OAKLAND AT MOLE

George Fong Planned to Shoot Down Tsai Hsun to "Save China."

DETECTIVES ARREST HIM JUST IN TIME

Prisoner Makes No Secret of Intentions to Assassinate Dignitary.

An attempt to assassinate Prince Tsai Hsun, head of the Imperial Chinese Naval Commission to the United States, as he left his special train at the broad gauge mole in this city yesterday evening was frustrated by the watchfulness and vigilance of Harry Moffitt, a resident of this city and for a number of years one of the most successful members of the federal secret service. Moffitt was assisted by Detective Sergeant George McMahon.

George Fong, a native-born Chinese, who intended to take the life of the Prince, was prevented from accomplishing his purpose just as he was about to draw a revolver from his pocket with which to kill the Prince as the latter was leaving the train.

HIDES IN CROWD.

Fong was among a large number of people who were present at the time to welcome the Prince. The train, however, did not stop at the usual place, or at least where Fong thought it would stop and where he believed the Prince would make his appearance.

However, Fong rushed toward one of the cars from which he thought the Prince was about to make his appearance, and while pulling off his gloves for the purpose of enabling him to draw his weapon the man was seized and arrested by Moffitt and McMahon, who had been previously informed that Fong was hostile to the Prince and was known as a suspicious character.

Fong was hustled off to the ferry. There was no demonstration in the arrest and the fact that his life was in danger was not communicated to the Prince until after he had gotten aboard the naval ship "Chadula" on his way to the other side of the bay.

ADMITS PURPOSE.

When questioned by Moffitt, Fong made no secret of his purpose of assassinating the Prince. He had on his person a revolver with five chambers loaded. He stated that he intended to kill the Prince, one of her enemies. He said that he was a member of the Young China party and that he considered it his duty to kill the Prince and rid China from the rule of Manchus. He admitted at the same time that he had some hesitations about firing the shot which was intended to take the Prince's life because of the number of Americans who were in close proximity to the Prince. He said that he feared that he might be the cause of injuring some of the people of this country.

Fong is 31 years of age and was born on Dupont street in San Francisco. He served as a cook at the Theta Beta Phi fraternity house in Berkeley. He is married and has a 2-year-old child.

WOULD BE MARTYR.

He stated that when the Prince was on the other side of the bay before, and when the Prince's brother was there on a former occasion, he heard a great deal about the wrongs being perpetrated on his people in China. These reports, he stated, impelled him to attempt to take the life of the Prince. He felt that that would make him a martyr to China.

The revolver which was found on his person he bought yesterday in a store on Market street between Second and Third streets.

Fong was educated at a Mission school known as the "School of Christ," which was at the northwest corner of Sacramento street and Prospect street in San Francisco, until the age of 20. Mr. Y. E. Hong was his teacher. After he left the school, according to his statement, he read the history of his country and realized the wrongs of his race, resulting at the time to do all in his power to free China from the Manchus. He said:

"George Washington was a great man. He freed America. I will free China."

He was asked what he would do if he failed in his attempt on the life of the Prince. He had been successful, and answered successfully: "I would go to the electric chair, and my countrymen would profit by my example."

In the jail in San Francisco and was "sweetened" again this morning by Officer Moffitt.

OFFICIALS TO PROBE.

This afternoon District Attorney Donahue and Captain of Detectives Patterson went to San Francisco for the purpose of inquiring into the alleged attempt of George Fong to assassinate Tsai Hsun.

The district attorney will question Fong and gather information to enable him to determine whether or not the accused man can be successfully prosecuted. In the event that he decides an offense has been committed, Fong will be brought to the city jail in this city pending his examination by the charge of assault with the intent to commit murder.

MAY ESCAPE PUNISHMENT.

SAN FRANCISCO, Oct. 7. — The United States attorney believes his office powerless to punish as he deserves George Fong, the Chinese revolutionary, who attempted to assassinate Prince Tsai Hsun, uncle of the Chinese emperor, at the Oakland mole yesterday.

Fong is still held in custody at the city prison, but as he claims to be an American citizen he cannot be deported to China as an anarchist, and as he did not actually attempt murder but merely had a revolver ready it is thought he cannot be prosecuted for a felony.

Mrs. Maude Treadwell Waterbury Obtains Final Decree From Court.

DECLARES HUSBAND JEALOUS OF DOCTOR

Accuses Him of Threatening to Shoot Her if She Saw Him.

Because her husband was insanely jealous of her physician, Maude Treadwell Waterbury, sister of Ivan Treadwell of San Jose, and heir to the famous Treadwell millions, was yesterday granted a final decree of divorce from George A. Waterbury, Jr., by Judge Waste. According to testimony, Waterbury was jealous of his wife's doctor and threatened to shoot her should she call upon him for treatment.

The name of the physician did not appear in the testimony or the pleadings. It was explained, however, that Waterbury would not tolerate his presence and when his wife upon a sickbed called for his attention because he had treated her before, Waterbury flew into a rage.

PULLED OUT PISTOL.

"He pulled out a pistol and told me he would kill me if I persisted in asking for this physician to attend me," Mrs. Waterbury declared in her testimony before Court Commissioner Crowell.

Later Waterbury fell ill and his wife called upon the obstetric doctor, who administered to him during a long illness. In explaining this Mrs. Waterbury said she "couldn't see a dog file unattended," and so called the services of the physician and the nurse at her own expense.

In fact, she testified that the Waterbury household was maintained at her expense. She said she supported her husband and maintained the home.

THIRD MARRIAGE.

Mrs. Waterbury's third marriage to Waterbury was her third matrimonial experience. It occurred in San Francisco on April 14, 1906. After a honeymoon, the couple made their home at 2445 Ashby avenue, Berkeley.

The daughter of Mrs. Waterbury by her former marriage also figured in the matrimonial disturbances. Mrs. Kate T. Jenny, a friend, said that Waterbury seemed to hate the child and once declared he would "like to shake her for spite."

CALLED HER NAMES.

Mrs. Waterbury made the further allegation that her husband called her names. He did not contest the action and an interlocutory decree was entered in April of last year. Under the provisions of the final decree she is permitted to resume her maiden name of Maude Treadwell.

Mrs. Waterbury stated yesterday that she had no intention of marrying again. She denied her reported engagement to William Rix, her attorney.

BRIDE HELD UNDER SUSPICION OF ARSON

On complaint of her husband that his bride of but four days had several times attempted to set fire to the house, Mrs. Emily G. Sweetser of Elmwood was taken into custody by Detective Harry Green yesterday and is being held pending a further investigation of the case.

The woman was under the influence of liquor when found in her home, and it is possible that she may be charged with drunkenness. She was found yesterday morning by her husband, a carling near her head, and the floor of her room sprinkled with coal oil.

ELEVEN NEW CHOLERA CASES FOUND IN ITALY

NAPLES, Oct. 7. — There are 11 new cases of cholera and six deaths from the epidemic in this city yesterday and last night.

spent considerable time this morning carefully reading the law on the subject and at noon expressed the opinion that save for the misdemeanor charge of carrying concealed weapons Fong could not be held. There is no statute covering Fong's case save that of alien anarchists, and if Fong can prove his assertion that he was born in San Francisco he is likely to escape severe punishment.

ANNOUNCEMENTS

AN EASY AND HARMLESS WAY TO DARKEN THE HAIR.

Who does not know of the value of dark and sulphur for keeping the hair dark, soft, and in good condition? As a matter of fact, sulphur is a natural pigment of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than sage and sulphur. It is properly prepared. The Wyeth Chemical Company, 74 Cortlandt St., New York City, put up an ideal preparation of this kind, called Wyeth's Sage and Sulphur. It is sold by all leading druggists for 50c, and \$1.00 a bottle, or is sent direct by the manufacturers upon receipt of price.

For sale and recommended by The Owl Drug Co., 13th and Broadway, 16th and Washington, 18th and San Pablo.

## FARMER CALLS WIFE BIGAMIST

John Beck of Pleasanton Files  
Cross-complaint; Denies  
Cruelty Charge.

John Beck, a farmer of Pleasanton, whose wife, Anna, is suing for a divorce from the ground of cruelty, today filed an answer and cross-complaint, embodying the charges he made against her some time ago when the suit was filed.

The Beckes were married on December 1, 1929. Mrs. Beck at the time of the marriage, according to her husband's statement, was the proprietor of a matrimonial bureau and involved him into the marriage.

His answer to the suit contains the charge that she committed bigamy when she married him. He alleges that her real husband is Louis Koehler and asks the court to annul his marriage with Mrs. Beck, as Koehler was alive at the time of the ceremony.

He denies the charges of cruelty and states that his property at Pleasanton is valued at \$1000, instead of the high figure placed on it by Mrs. Beck in her complaint.

## BLIND HUSBAND'S PLAN FOR DIVORCE

Blind Woman Will Sue Real  
Estate Man for Separate  
Maintenance.

Carroll McComb, a real estate man of Berkeley, will be unable to get a divorce from his blind wife on the grounds of desertion and marry a woman who, it is alleged, he has introduced into many of the best homes in the country as Mrs. McComb. The suit was filed about a month ago, but on the eve of its hearing he entered a dismissal of the case.

Rose McComb, his wife, announced through her attorney, W. B. Smith, that she would never permit her husband to get a divorce in order to marry another. She alleges that her husband sent her on trips about the country and while she was gone charged her with desertion. She will now sue for separate maintenance and in this way prevent her husband from ever securing a divorce.

A cynic is a man who takes himself seriously he can't anybody else.

## UNCLE SAM'S EMPLOYEE FOR PAST 25 YEARS

GEORGE F. COLLYER.

### Carrier Celebrates His Quarter Century of Service

George F. Collyer today celebrates the twenty-fifth anniversary of his entrance into the employ of Uncle Sam as one of the faithful letter carriers and today has the honor of being the oldest carrier in point of service in the Oakland post office. He has lived in Oakland for the past forty years and is a graduate of the public schools here.

George F. Collyer went to work for Uncle Sam long before the civil service regulations were put into effect in the postoffice department and has made a record of which any man should be proud. It is said that during his long years of service he has never reported late for work and has never been called upon to explain any infringement of the rules of the office.

Seventeen years ago he was sent to Fruitvale, where he and five others did all the work of the district. When the service was discontinued there he was sent back to Oakland, where he worked until after the San Francisco earthquake, when the Fruitvale district was again organized and he asked for his old place. The territory that had six carriers seventeen years ago now has twenty-three.

A few years ago he won the gold watch offered by THE TRIBUNE for the most popular mail carrier. He also has a gold badge for twenty-five years' membership in Liberty Lodge No. 32, in which lodge he has been through all the chairs, and has been one of the most active members. He is now secretary of the lodge.

## SEEK PROTECTION FROM FIRE FIEND

Feralta - Claremont Improvement Club to Urge Better  
System.

At a regular meeting of the Feralta-Claremont Improvement Club, held last night in the Feralta Schoolhouse on Alcatraz avenue, east of Telegraph, the question of fire protection was the principal topic of the evening. The fact that the residence of one of the members of the club had been destroyed by fire, within the past three days, before the fire engines could arrive upon the scene was the subject of much discussion both by members of the Feralta-Claremont Club and by members of the Feralta-Claremont Improvement Club, who were present as a delegation, promising co-operation in endeavoring to secure better fire protection from the city council.

Clarence Harold Edwards was present and said that he realized the inadequacy of the present fire protection in the Claremont district and believed that better protection should be given, and that at the next meeting of the city council he would introduce an ordinance aiming to better the situation.

### DELEGATION TO CONFER.

The Improvement Club resolved that a delegation, under the leadership of L. L. Laugel, chairman of the fire committee, should attend a meeting of the finance committee of the council and present to that committee the needs of the Claremont district and endeavor to have the city council authorize the erection of a fire house on the lot now owned by the city at Sixty-second and Clay streets, east of the turning of at least a chemical engine to afford temporary convenient protection to the homes in the vicinity.

Councilman Edwards was also called upon to speak concerning the ordinance to abolish private booths in restaurants and was assured the hearty support of the club in his efforts to that end.

### REPORTS ON CHARTER.

The charter committee reported that the freeholders had completed the new city charter and that the same would soon be presented to the voters of Oakland for their approval or rejection, together with an alternative proposition to insert in the new city charter a provision to prohibit the licensing of saloons in residence districts. In order that the members of the club and the residents of the district might become better informed as to the provisions and purposes of the proposed charter, it was decided that the next meeting of the club should be held on Thursday, October 20, in some suitable hall and should be a special public meeting to which all the residents of the district should be invited, and a committee of arrangement, consisting of Charles G. White, W. G. A. Miller and George W. White, was appointed to secure a suitable meeting place and speakers specially qualified to speak upon the charter.

It is the intention of the committee to secure a speaker on this occasion at least one member of the board of freeholders that has just completed the drafting of the charter, and to have the commission form of government, the initiative, referendum and recall, and other features of the proposed city charter fully discussed and explained.

### FORCED TO LEAVE HOME.

Every year a large number of poor sufferers whose lungs are sore and racked with coughs are urged to go to another climate. But this is costly and not always successful. There is a better way. Dr. King's New Discovery cures you at home. It cured me of lung trouble. I was a weak, thin, nervous man, and when all else failed and I gained forty-seven pounds in weight. ## ROOSEVELT COMES TO DEFENSE OF NATIONALISM TO MANSFIELD

'Back Among My Own People,'  
He Declares at  
Bristol.

### WOULD KEEP DEAL IN NATION SQUARE ONE

Rights of People to Rule the  
Cardinal Principle of Doctrines, He Says.

BRISTOL, Tenn., Oct. 7.—In a speech here today former President Roosevelt defended his doctrine of new nationalism. The crowd which greeted him was so great Colonel Roosevelt had to fight his way from his automobile to the grand stand. (Cries from Bristol) female college in their caps and gowns presented him with a bouquet of roses.

"Much obliged," Colonel Roosevelt shouted, waving his hat at them.

"I am back among my own people," said Colonel Roosevelt. "It's come back from Africa and Europe. It's not in spite of all our shortcomings, there is no another land where the average man has such a chance as he does here."

### SQUARE DEAL.

"All that I am trying to do is to keep this land as one in which the average man has a square deal. That I mean by the word 'square deal' is simply this: the efficient application of the old moralities to new and changed conditions."

"This country was founded for the purpose of trying to secure equality of opportunity for all men and we must try now against the forces of idealism."

"We must try to see that in political and industrial life there is no special privileges."

### FOR LABORS.

"I am for the laboring man, but only if he is a straight man. My critics say I attack only the rich. That is not true. I am for the little crook but there is this distinction: The neighbors of a little crook can take care of him, but when it comes to a man with a hundred million, he's the neighbor of all of us. He's too big for his immediate neighbors and that's why I want Uncle Sam to tackle him. He's big enough."

"That is not revolutionary, but counter-revolutionary."

He added that much federal control would obviate conditions which might bring about a revolutionary movement.

### CARDINAL PRINCIPLES.

"Here are two cardinal principles of the new nationalism," he said. "In the first place, efficient honesty. In the second place, the right of the people to rule."

"The men who are honest in Wall street have nothing to fear in new nationalism, but the Wall street man who wants to make a fortune by selling paper which is not worth anything is perfectly right in dreading new nationalism. The man who has a hundred million dollars and uses his power improperly is right in dreading new nationalism, for he intends to share him or that power."

At noon the Roosevelt train departed for Knoxville.

### Thought It Kitty; 'Twas Only a Rat

READING, Pa.—While seated at a  
rocking chair in her room, Miss Pauline  
Steele, aged 60 years, and an invalid, got  
a severe nervous shock. She felt some-  
thing crawling around her skirt. She  
reached down and picked it up, thinking  
it was her 3-weeks-old kitten, and laid  
it upon her lap. Upon looking down she  
found she had picked up a good-sized  
rat. She screamed and neighbors ran in  
and killed the rat.

## Don't Be FASHION'S SLAVE SHE SAYS

NEW YORK.—Adele Ritchie, the ac-  
tress, makes these statements on the  
clothes question:

"Don't wear so many clothes. Isn't a  
swan prettier than a goose? The differ-  
ence is in their lines. The moral: Follow  
the swan."

"Don't be a slave to styles. Just be-  
cause, for instance, hobble skirts are the  
rage, don't be foolish and wear one. The  
ridiculous is never becoming, even to  
beauty, and on a plain woman is ludicrous."

"Good dressing is good art. Good art  
is never garish. Therefore, don't try to  
look like a poor quality rainbow. You'll  
only get the laugh for your pains."

"People don't turn around and stare  
rudely at a well-dressed woman. But they  
will sit and study her in the street car or  
elsewhere, just to get nice. There's a  
vast difference between being studied and  
being stared at."

"Blondes must never wear 'shiny  
things.'"  
"Finally, cultivate long flowing lines.  
Wear one-piece dresses. Wear the same  
color skirt and waists. As anything but  
business wear, the shirt waist is con-  
demned as bad."

"The corset ought to be fitted carefully  
to the figure by an expert, otherwise it  
will injure the vital organs. Then one  
ought to put on a princess slip and a fit-  
ted undershirt—one that fits snugly about  
the waist, without a wrinkle in it. Over  
this goes the dress. And that is all. And  
that is not immodest or too little cover-  
ing." It is a costume that is hygienic and  
same in good taste."

## She Is the World's First Chauffeuse

NEW YORK'S FIRST CHAUFFEUSE.

NEW YORK.—Paris may boast  
of her "femme cocher" and  
her tender regard for the  
hack horse, but New York  
now has a real "chauffeuse,"  
duly registered and licensed,  
who is now open to engagements and, as

she says, "I know the business from the  
ground up—though most of it is on the  
ground, to be sure—and I don't see why I  
cannot make as much of a success as a  
man."

Miss Natalie White of No. 853 West  
Fifty-eighth street has received license.

New York, 1909, and is as proud of the  
bit of tin as if it were a diamond branch  
of priceless value. She was 21 years old  
on Sunday and lives with her cousin, Dr.  
E. Townsend McKenzle.

"Why shouldn't women make good  
chauffeuses?" she said. "If you think  
I'm not strong, feel my arm." The re-  
porter found that member surprisingly  
firm and muscular. "That comes from  
automobile driving," she explained. "A  
woman driver would be more sober, is not  
reckless, is less likely to graze on repairs,  
and not apt to indulge in joy riding."

Then Miss White told how she hap-  
pened to become a chauffeuse. "I have  
always been crazy over machinery and  
particularly interested in automobiles,"  
she said.

### TEACHERS HERSELF.

"I had a friend who had a car, and  
then I learned to run it. Finally the idea  
occurred to me of taking it up as a busi-  
ness, and I went to a shop and asked  
for a job. They told me I would have to  
have a course of study first, so I went to  
the New York School of Automobile En-  
gineers and inquired if they would take  
me."

"The manager was surprised and said:  
'Why, you wouldn't want to go into a  
class of all men—we never had a woman  
in the school.' I told him to 'just try  
me.' I went for two weeks, and then  
I had some mending and other little jobs  
to do to get things in order before I could  
go on."

"Isn't my badge lovely? It only got  
down today." And Miss White held out  
the blue tin disk admiringly. "I am  
awfully proud of it, and if only some one  
will come along and give me a job I will  
be very, very happy."

## PLUNGES TO DEATH WHEN LIFE PALLS.

NEW YORK.—Driven desperately by the  
increased cost of living since the arrival  
of a baby five weeks ago and without  
any prospect of her husband's rise in  
rank, earned over a machine in a  
sweatshop, being increased, Mrs. Tillie  
Kahman solved the problem by hurling  
herself from the roof of a seven-story  
tenement. She met instant death.

"We poor folks have no right to chil-  
dren," she had said to some in the neigh-  
borhood some time before the child was  
born. "We have no right to bring them  
into the world. What have we to offer  
them? What chance is there for them?"

Prompt decision is the secret of man-  
aging a husband. The woman who hesi-  
tates is bossed.

## GIRL SAYS SHE BEGGED LOVER TO KILL HER.

WILKES-BARRE, Pa.—Alice Grish, 19  
years old, of Nanticoke, who gave Stan-  
ley MacIver a revolver and begged him  
to kill her when she found that he was  
not going to marry her, testified against  
him. She made a pathetic witness.

After telling how she loved MacIver  
and had believed that he meant to keep  
his promise to marry her, she related how

she learned he had quietly married an-  
other. She sought him, gave him a lead-  
er revolver and asked him to kill her.  
He placed the revolver against her  
heart, she declared, and said, "It is on  
the dot; are you ready? One, two, three."  
Just as she expected him to pull the  
trigger he threw the weapon away and  
said he would not kill her. Then Miss  
Grish decided to prosecute him.

## WICIOUS MONKEY ATTACKS WOMAN

Mrs. J. P. Terit the Victim of Animal That Followed Her Home.

FITCHBURG, Oct. 7.—Mrs. J. P. Terit, who runs a saloon at the corner of Great avenue and East Fourteenth street, was badly bitten by a monkey yesterday afternoon and had it not been for the assistance of four men who heard her screams for help, she might have been even more seriously injured. It is said that the men were obliged to pry the animal's mouth open before he would let go of his victim.

Mrs. Terit was sitting in Fuller's Gardens when she noticed the monkey standing on a table looking at her. She immediately became frightened but as her only means of escape was blocked by the monkey, she decided to attack him with her gaze. The monkey came nearer and she decided to rush for safety.

The animal followed her to her home and she reached the door just in time. Here she thought she was secure and went to an open window to see what had become of the animal. Just as she reached there the monkey jumped in and immediately attacked his victim. She screamed for help. Four men who were passing rushed to the door but finding it locked they broke it down and rushed to the aid of the victim just in time to prevent further harm.

## W. C. T. U. GATHER FOR BERKELEY CONVENTION

President Wheeler and Mayor Hodghead Welcome Delegates; President's Address Read Today

BERKELEY, Oct. 7.—With addresses of welcome by Mayor Hodghead of Berkeley, President Wheeler of the University, C. C. Juster, president of the local Chamber of Commerce; Rev. LaSley A. McAfee, Mrs. Elinor Carlisle and Mrs. Mary C. Thomas, president of the Berkeley W. C. T. U., the thirty-first annual convention of the W. C. T. U. began at the First Presbyterian church last night.

In response to the address made Mrs. Addie Bates of Stockton spoke in behalf of the assembled delegates. Mrs. Sara J. Dorr, state president, presided at the meeting.

In his address Mayor Hodghead called attention to the fight which the W. C. T. U. had waged during the past since it has been formed.

CITY IS CLEAN.

"We have in Berkeley," he said, "the very things for which you battle. Here we have done away with saloons and have made our city one of the cleanest as well as one of the most moral in the country. We are proud of what we have done and we are glad to welcome you here so you can see what has been accomplished."

Mrs. Elinor Carlisle told of what has been done by the W. C. T. U. and its organization has accomplished wonders, but there are more wonders to be accomplished. We do not intend to stop now and be satisfied with what we have done, but plan to go right ahead battling for the right and doing all in our power to uphold the purity of humanity.

POLITICS PURGED.

In his address President Wheeler of the University said:

"The teaching of civics in the public schools of the cities and the great influence of President Roosevelt have combined to make our public life clearer. In the past men did not believe it was necessary to keep clean in politics, but this has been changed and now it is the wish of all to have clean government by clean men. The W. C. T. U. has aided in bringing about this representing this new movement in public life."

C. C. Juster, president of the Berkeley Chamber of Commerce, said:

PROUD OF BERKELEY.

"In the name of the commercial and real estate interests of this fair city you are none but Berkeley," he said.

"We are all proud of Berkeley, and one of its pleasing attributes is its freedom from the taint of politics. It is a credit to the city which you so bravely defend, congratulations so with our welcome."

Here you are surrounded by ideal homes, ruled and blessed by observance of municipal rule to which you give your approval and support. Here you find the conditions which you seek to obtain in the entire country. Here the schools are maintained in the highest manner at heart of the city and here society is actuated by the same motives which make for good citizenship.

WORK RECOGNIZED.

"Your good work is recognized and applauded by the wise, and you carry with you the best wishes of all who have welfare at heart of the city and nation. May your efforts be crowned with success, and may your own lives prove a joy to every member of your convention."

This morning the convention was formally opened when devotional services were held in the church, beginning promptly at 9:30. This association of the president's address was read and reports made by chairmen of the different committees, showing the work which has been done in the district on the coast during the last year.

The session this evening will open with a service to be followed by the reading of report and several addresses by members of the organization.

MEMBERSHIP GROWS.

At the first formal session of the California State Women's Christian Association convention this morning, State President Mrs. Sara J. Dorr of San Jose and Recording Secretary Mrs. Abbie A. Estes of Stockton read their reports, showing that the membership of the W. C. T. U. on the coast had received an increase of 229 members, and now had a total membership of 5,000. There are 75 new unions on the coast.

Mrs. Elizabeth Love Watson, president of the State Suffrage Association, attended the convention.

## WOMAN GOES EAST TO CONVENTION

Mrs. Winifred Bagg Leaves City for Denver to Attend Alumnae Conclave.

BERKELEY, Oct. 7.—Mrs. Winifred Bagg, 2718 Regent street, has left this city for Denver, where she will act as delegate to the State Association of Collegiate Alumnae, which convenes in that city October 17. While in Denver she will be the guest of her aunt, Annie Grace, who is a member of the faculty of the University of Denver in the department of modern languages. Miss Bagg will pass some time in her visit as the guest of another aunt, Mrs. Thompson, wife of Senator Thompson of Colorado.

TEAM GOES SWIMMING.

BERKELEY, Oct. 7.—As a substitute for the regular swim team, the varsity squad, accompanied by Coach Schaefer and Trainer Christie, were taken to the Berkeley swimming pool yesterday afternoon. It is planned to have these swimmers frequently in the future.

Graduate Manager of the team today received a telegram from Vancouver saying that the Canadian team would be unable to make the trip this year as was planned. This announcement comes as a disappointment, as the Varsity-Vancouver game was of great interest.

## EAST OAKLAND YOU'H MISSING

Don E. Campbell, a young man residing at Fifth avenue, in the annexed district, is reported by his relatives as missing since Monday morning, and as nothing has been heard of the fate of the young man, his friends fear foul play. He was 28 years of age, 5 feet 11 inches in height, weight 170 pounds, had dark hair and was clean shaven.

Milton Evers, a 14-year-old boy, escorted to the West Oakland Home yesterday and the police have been asked to locate him.

ARSON CASES CONTINUED.

The case of Heyma, Friesberg and Lator, charged with having been arraigned this morning in Judge Brown's court on a charge of arson, were continued until October 1.

## SEEKS SITE FOR NEW POSTOFFICE

Government Officials in Berkeley to Meet Property Owners Today.

BERKELEY, Oct. 7.—J. W. Roberts, superintendent of construction and repairs of the United States postoffice buildings, will meet the property owners who have offered sites to the government for the new postoffice this afternoon. The meeting will be held in Postmaster Merrill's office.

Roberts has been in town several times recently inspecting sites which have been offered. Following the meeting today he will forward his recommendations to Washington. Congress appropriated \$150,000 for the erection of the new federal building here, and ten offers of sites were made. These range in value from \$30,000 to \$50,000.

There's hardly anything that can cause a higher temper than love.

## PASSES A CHECK AND IS ARRESTED

The Police Take Suspect Into Custody; Thought to Have Swindled.

ALAMEDA, Oct. 7.—Harry Swartz of 1711 Santa Clara avenue has been arrested on suspicion of passing fictitious checks on merchants in this city. Swartz attempted to give a \$12 check drawn on the Alameda National Bank and endorsed by A. Baerle yesterday to merchants in Park street in exchange for purchases. His actions were thought to be suspicious and the police were sent for. Swartz entered the stores of Krier & Halton, Schneider's stationery store and the A. Akesson brewery. He is being held at the city prison, pending investigation into the genuineness of the check.

It's small consolation for a man to realize that he isn't as bad as he might be.

# The Realty Syndicate's miscellaneous properties

We are selling out all of our scattered lots in order to clean up our books. This is why we quote these prices. In connection with this sale we wish to make one point very emphatic. It is this: Every lot advertised is in an ESTABLISHED neighborhood.

We are not offering property where the buyer has to wait for the city to grow up to his lot.

Every one of these lots is either on or near a car line—they are all in built-up neighborhoods where values are absolutely proven.

Many of them are business lots where for \$800 or \$1000 a combination flat and store could be built that would bring the buyer from 9 to 15 per cent profit per annum.

Others are residential properties, surrounded by fine homes and protected by building restrictions and made desirable by the very finest of neighbors.

In fact, there are lots for every purpose—investment, residential or business. It is unquestionably the greatest list of miscellaneous properties ever advertised in the Oakland papers by a real estate concern.

If you do not investigate you miss an opportunity that will probably not occur again in the history of Oakland. Values are increasing every day and will continue to do so for years to come.

## DEPUTY FINDS FUGITIVE FIRST

Arrested Negro On Old War-  
rant While Mob Pursued  
Him for New Crime.

OKMULGEE, Okla., Oct. 7.—While a mob was pursuing Fred Starr, a negro, near here last night after he had shot and seriously wounded Charles Runyan, a Muskogee attorney, Charles Widney, a deputy sheriff, caught the fleeing man, arrested him on an old warrant and had him in jail before he knew his prisoner was being sought by a mob.

When the citizens who were seeking Starr learned that he was under arrest, they returned to their homes without making further demonstration.

Starr and Runyan had trouble over a land deal. The attorney bought a farm from the negro and later Starr demanded that the deed be returned. Fear that Runyan would not comply with his request caused Starr to shoot him. After he was shot Runyan promised to cancel the trade.

## NEWS OF THE OIL FIELDS

### KERN BELT EXTENDED WEST ALMOST A MILE

West Side Company Drills Successfully  
Far From End of Former Proven Sec-  
tion in Big Field

LOS ANGELES, Oct. 7.—The Kern West Side Oil Company is down 350 feet on the southwest corner of 35, 28-2, Kern river, where it has acquired a tract from the State Oil Company. It is using 18-inch casing and is prepared to go to great depths. The State Oil Company is drilling at the northeast corner of the same section. A discovery at this last point will extend the proved belt west about a mile, the nearest producing well being the Kern Drillers on the northwest quarter of the northeast quarter of 36, and a strike by the Kern West Side will carry the belt west a mile and three-quarters. The owners of the Kern West Side are San Francisco people. It is supposed that Captain Barneson is interested in this enterprise. He is one of the principal owners of the State Oil, which he is associated with John Baker, Jr., and W. A. Irwin.

He is one of the principal owners of the State Oil, which he is associated with John Baker, Jr., and W. A. Irwin.

#### TO TRANSFER INTERESTS.

The Union Oil Company is making arrangements to take over the interests of the Barnard Oil Company in section 24, 32-23, which is just south of Taft. The latter company erected five rigs, one of which is now drilling, and the four remaining are almost ready to start work. The terms of the deal are not publicly known.

Grundy & Co. of Los Angeles have started drilling on the Newhall ranch in Tapia canyon, Ventura county, just across the Los Angeles county line. They are using a patent core drill, by which, it is asserted, that much more rapid progress can be made through hard formation than with any other drill and the core taken out of the hole in a solid piece so that it can be examined and formation ascertained as work goes on, beyond a doubt. They are down between 300 and 400 feet, using a 10-inch casing. J. H. Butts of Hanford is down some 500 feet with the same drill near the southern end of the Devil's Den.

#### ACQUIRES LAND.

The Enos Oil Company has acquired the forty acres of the Colin Stewart Oil Company, comprising the northeast quarter of the northwest quarter of 6, 24-23 Kern river, adjoining the Enos property. This gives the Enos 250 acres on section 6, besides its holdings in Santa Maria. The transfer took place some weeks ago. Well No. 1 of the Puritan Oil Company, on Sulphur mountain, which spudded in August 77, is going along nicely without the trouble from boulders and water which was encountered in No. 2 well of the Liberty, drilling on adjacent ground. Last week the Puritan had in 325 feet of 15½-inch stovepipe casing.

The Liberty Oil Company is getting along better with No. 2, in which boulders hindered the work since shutting off the water at 1200 feet which was done with 10-inch. The hole is now down

### CLERK ON STAND IN EMBEZZLEMENT TRIAL

Cecilia Alderman, formerly a clerk in the office of the Sperry Flour Company, was on the stand in the Barnard trial in Judge Brown's court this morning. Miss Alderman's testimony was chiefly on the handwriting of the entries supposed to have been made by Barnard in the cash books.

She was asked to identify the writing as that of Barnard, but on some of the entries she was unable to state whether or not they were in the accused man's penmanship.

After Miss Alderman had completed her testimony she was crying in such a manner as to gain the sympathy of the Bar.

Chinese Prince Trips the Light Fantastic Toe With Chorus "Ladies."

Stockton Beauty Captures Bold Burglars at the Point of Revolver.

**N**EW YORK, Oct. 7.—King and queen, your excited conversation gave me extreme satisfaction," said Prince Tsai Hsun, up to Pu Yi, the deposed emperor of the Great Kingdom, last Saturday night. The prince, with his suite, was dining with Charles M. Schwab in a private apartment at the Waldorf.

"In my poor palace in China," said the prince, "I am not so much of a dancing man as you are. There are many dancing maidens here."

"Hold, noble prince," cried Mr. Schwab, "let me see you in a moment's conversation at the telephone, my lord, and you shall see how our girls dance."

And the Chinese prince who came over here to discuss warships and such weighty things saw such dancing in the next two hours as made his eyes pop out and his dignity fly out of the window.

Three big touring cars rolled up to Schwab's with the choicest collection of Broadway talent and the prince, who, until the party broke up at dawn there was something doing.

After doing little Irene Martin and "Gypsy" Moore had danced their Louisiana Lou and sang a few impromptu parodies, "Oh Chin see you how we love you," the prince expressed a desire to be presented to the "males with the girls."

"There I just went right up to the prince and took him on the floor to show him the dance," began Miss Martin to the prince. "The prince was very gay and all about him, but he seemed to like it, and he kicked around real lively like."

### She Routs Thug

STOCKTON, Oct. 7.—Bu glars have no terrors for Mrs. George Chapman. She found two men at her home here yesterday afternoon and though one jumped through a window to escape, she brought him back at the point of a six-shooter, telephoned the police and had him arrested. The men were in the name of Charles Waddell, alias "Jock," a bar-keeper, and Ernest Bowen, a cook.

Mrs. Chapman, who had been out for a drive, asked when she found the men, "What are you doing here?"

"They said they had found the door open and had walked in," said Mr. Chapman.

"I repeated this statement," said Mr. Chapman, "and I had looked the door. They had been attacking the house. I ran to the bureau and found my husband's watch, a diamond ring and other jewelry which they had placed in a moment, while the other left the room. I heard the bedroom window slam. Backing into the kitchen, I saw a man following me. After a chase of a block I captured the fugitive. 'Stop or I'll kill you,' I said."

The other fellow had caught up in the meantime. Covering both with the revolver I telephoned for the police."

The police say that Mrs. Chapman, who is noted for her beauty, was not at all frightened and turned the men over with a smile.

Bowen came here about three weeks ago from San Francisco.

### White-Sears Next?

BOSTON, Oct. 7.—Eleanor Sears, the meteoric Back Bay belle who started Boston not many months ago by declaring that she admired gro men more than the men in her set, has not society here gossiping by her constant association with Claude Grahame-White, the British aviator.

For the last week she has been a daily spectator of his flights at the Brockton fair and the two have been together constantly. The world would not wonder if England society took to ear of an engagement.

They met barely three weeks ago on the aviation field at Scituate. Grahame-White took the thirty-year-old society girl for a sensational sail in his airship. Immediately afterward she took him on an exciting automobile ride. Then the two were constantly seen in the restaurants about Boston at dinners and after theater supper parties. Miss Sears worships the physical fit man.

"The men in our set are all sisters," she is reported to have remarked in a polo game. "I just love a groom. He is a real man. He is willing to take a sporting chance."

NEW YORK, Oct. 7.—The acerbated romance of Walter Phelps Dodge and Helen Louise Steck, which began with love at first sight at a dinner and was continued by cable and wireless until the millionaire's daughter jilted and married the author-lawyer in London, has ended in a separation less than a year after the wedding. Mr. Dodge, 42, and the father of three children by two former wives, has been left in a London home by his 17-year-old bride, who is now in New York. Her affairs have been placed in the hands of an attorney.

# Candidates Busy With Gubernatorial Campaign

## SAN LUIS TURNS OUT TO WELCOME JOHNSON

**Carnival Spirit Reigns in Southern California City When Candidate for Governor Arrives for Meeting**

SAN LUIS OBISPO, Oct. 7.—This city celebrated the arrival of Hiram Johnson, candidate for Governor on the Republican ticket, last night with a display of fireworks and carnival spirit such as has never been seen here. It was a great night and the crowds on the streets gave a vociferous welcome to the G. O. P. standard bearer.

Although 1200 or more persons were packed into the main floor and balcony seats of the old Pavilion theater and standing in the aisles at the sides and rear, the street before the building was massed with those unable to find room inside.

### CROWDS CHEER NOMINEE.

When Johnson entered the theater with officers of the county central committee and a number of candidates for local county offices, the great crowd arose to its feet, cheering, stamping, applauding and tossing hats and handkerchiefs into the air.

Prior to the meeting a band concert was held in front of the Andrews hotel, where Johnson and his party were received, and a parade was organized to escort him to the theater. It was practically one of the old time torchlight processions, though, instead of carrying torches, the marchers made the way brilliant with roman candles and skyrockets. White colored fire was burned in the gutters along the street. The band led the way to the theater and placed in the street before the building until the speaker of the night and the members of the reception committee had entered the auditorium.

### JOHNSON GIVEN OVATION.

Johnson spoke for 45 minutes and was cheered time and again during his address, while at the end he was given an ovation that continued for several minutes. At last night's meeting and that of yesterday afternoon at Arroyo Grande are taken as any indication of the political sentiment of San Luis Obispo county, Johnson will win a sweeping victory here in November.

The itinerary prepared for Johnson yesterday had included an all day automobile trip with speeches during the morning at Santa Maria and Guadalupe, an afternoon meeting at Arroyo Grande and a night meeting here. Owing to the hard trip of Wednesday, however, and the necessity of practically all night travel last night in order to make the necessary connections, the schedule was rearranged late Wednesday night. The meetings at Santa Maria and Guadalupe were postponed and arrangements were made for a night meeting at Santa Maria later in the campaign.

### CONTINUES ON HIS JOURNEY.

Johnson remained in Santa Barbara until yesterday, when he and his party left by train for Oxnard, where he was met by the San Luis Obispo county central committee. From Oxnard Johnson was taken by auto to Arroyo Grande, where a meeting was held last night.

### YOUTH INJURED BY AUTOMOBILE

Louis Hansen Thrown Upon a  
Rock Pile; Funeral of  
Mrs. Flynn.

Louis Hansen, a youth of 32 Wood  
street, West Oakland, had a narrow es-  
cape from death at an early hour yester-  
day morning, when he was run down by  
a passing automobile on the boulevard  
that parallels the railroad track to the  
mole.

Hansen was walking along the boule-  
vard at about 6:15 o'clock, watching a  
passing train. The chauffeur of the au-  
tomobile had his attention elsewhere, and  
did not see the lad until he was upon  
him. The auto struck Hansen, threw  
him violently to one side onto a pile of  
stones, where he sustained a large scalp  
wound and minor lacerations about the  
face. The automobilist picked Hansen  
up and rushed him to the office of Dr.  
Dietz, 1830 Eighth street. Dr. Dietz  
found it necessary to take several stitches  
in the wound, but states that the lad's  
condition is not serious. Louis Hansen  
is an errand boy for a milliner in Oakland.  
The name of the automobilist who ran  
down Hansen could not be ascertained.

### FUNERAL OF MRS. FLYNN.

The funeral of Mrs. Johanna Flynn,  
wife of the late Patrick Flynn, who con-  
ducted a coal business for thirty-five  
years at Seventh and Center streets, West  
Oakland, was held from St. Patrick's  
church, West Oakland, at 3:30 a. m. yes-  
terday.

Mrs. Flynn succumbed to heart failure  
on October 4, after a short illness. She  
died at her home, Seventh and Center  
streets, where she has resided for a great  
many years. She is survived by one son,  
James T. Flynn, and by three daughters,  
Sarah Flynn, Ella Flynn and Mrs. George  
H. Thomas.

The funeral was conducted by McCar-  
thy & Co., undertakers, of 301-San Pablo  
avenue, Oakland. It was held from St.  
Patrick's church. Rev. J. B. McNally,  
pastor, delivered a fitting funeral oration.  
Mrs. Flynn was highly esteemed by her  
neighbors as a woman of sterling quali-  
ties.

High requiem mass was celebrated at  
St. Patrick's church and was immedi-  
ately succeeded by the funeral service.  
The pall-bearers were: Michael Hanley,  
Mr. Colin, Mr. Tracy, Mr. Brown, Michael  
Flynn and J. J. Kennedy.  
The remains will be interred in St.  
Mary's cemetery.

For Benefit of Women who  
Suffer from Female Ills

Minneapolis, Minn.—"I was a great  
sufferer from female troubles which  
caused a weakness  
and broken down  
condition of the  
system. I read so  
much of what Lydia  
E. Pinkham's Veg-  
etable Compound  
had done for other  
suffering women I  
felt sure it would  
help me, and I must  
say it did help me  
wonderfully. My  
nerves all left me, I  
grew stronger, and  
within three months  
I was a perfectly well woman."

## DISCOVERY DAY STIRS INTEREST

Committee Chairman Report  
Good Progress in Plans for  
Holiday Observance.

At a public meeting Tuesday which  
was marked by much enthusiasm, plans  
for the Discovery Day celebration and  
carnival which will be held on Lake  
Merritt Wednesday, October 12, were  
fully discussed, the chairman of the va-  
rious committees in charge of the great  
event reporting steady progress.

J. C. Capwell of the literary commit-  
tee, Leo J. McCarthy of the regatta  
committee, John J. Tigue of the queen  
contest committee, and other chairmen  
made their reports and showed that  
everything was in order for one of the  
most notable celebrations ever held in  
Oakland, or for that matter, in Califor-  
nia.

Discovery Day, which is a compara-  
tively new holiday, this year making the  
second time that it has been observed in  
this state, has already won a great deal of  
public interest and bids fair to take its  
place with such national holidays as  
Washington's birthday, July 4, Lincoln's  
birthday and others.

Hugh Hogan, chairman of the general  
committee, County Superintendent of  
Schools Frick, Judge William R. Gray,  
A. A. Denison, secretary of the Cham-  
ber of Commerce, Willie Walker, and  
other prominent men spoke in favor of  
the holiday. Frick stated that the event  
should awaken a keen desire in the  
hearts of all Americans and especially of  
young Americans. The origin of the cele-  
bration of the day, dating from the dis-  
covery of America, which made all the  
other holidays possible, should be particu-  
larly valuable to the school children.

### FUN FOR YOUNGSTERS.

The committee in order to make the  
day interesting as possible for the  
children, will have a merry-go-round,  
water sports and other amusements for  
the youngsters and they will enjoy the  
day as much as their elders. The city  
schools of Oakland, Alameda and Berke-  
ley, and the schools of Alameda county  
will be asked to participate in a large  
gathering of children is expected.

S. J. Pinkham, one of the best-known  
orators in the United States, has been  
placed upon the regatta committee and  
will aid in making this big feature a suc-  
cess. Although a large number of  
prizes has already been won, many more  
will be entered to compete for the many  
fine prizes to be offered for the large list  
of water events. Thomas Kendall is  
swimming contestants entered and in  
addition to those already announced are  
sixteen expert swimmers from the West-  
ern Club, the Polytechnic High School  
and the Piedmont Club. There are six  
entries in the canoe races and the  
double skull rowboat races have many  
entries.

The voting contest which is to decide  
whether Miss Sallie Butterford or Miss  
Jeanette Catherine Ratto will reign as  
Queen Isabella over the celebration is  
growing keener, as the last day ap-  
proaches and it is expected that there  
will be many thousands of votes cast  
between now and Saturday night, when  
the contest closes.

Many communications from outside  
points are being received and a large  
throne of visitors is looked for.

### PET MONKEY HAIGS ITSELF IN CAGE

RED BLUFF, Oct. 7.—A pet monkey  
belonging to John Engle, committed sui-  
cide here by hanging himself with a strip  
of a quilt. The animal was left in charge  
of Ed McGovern, who put it to sleep in  
its cage the night before as usual. Wed-  
nesday morning the monkey was found  
hanging to the roof of the cell. It had  
torn the strips of quilt during the night  
and ended its own life.

## ATLANTIC BOATS COME TO PACIFIC

Steamers From New York and  
Boston Run Transferred at  
Cost of \$100,000.

SEATTLE, Wash., Oct. 7.—The Post-  
Intelligencer this morning says:  
The transfer of the steamers Yale and  
Harvard from the Boston-New York run  
to the Pacific coast for use on the Los  
Angeles-San Francisco run has been  
financed by the New York, New Haven  
and Hartford Railroad, which operates  
the Fall River boats on Long Island  
Sound.

When Charles W. Morse was in the  
tomb in New York he obtained control  
of the Metropolitan Steamship Company  
and used the system to make an advan-  
tageous settlement with the railroad in-  
terests. It is believed to have been a  
part of this adjustment with Morse that  
the Yale and Harvard should be removed  
from competition with the New York,  
New Haven and Hartford boats.

The present deal is being financed by  
that road and the expense of sending the  
two vessels around the Horn,  
amounting to over \$100,000, will be  
borne by the railroad.

## POPE'S BLESSING GIVEN TO NATION

Cardinal Vannutelli Conveys  
Message From Vatican to  
United States.

NEW YORK, Oct. 7.—To the Catholics  
of America, his eminence Vincenzo, Car-  
dinal Vannutelli, apostolic representative  
of Pope Pius X, yesterday sent the fol-  
lowing message:  
"The Holy Father is commencing more  
and more to regard your United States  
as the favorite daughter of the church.  
Catholicism has here made  
more wonderful strides than anywhere  
else in the world. Your bishops and  
priests and teachers have built up a  
magnificent church organization. Under  
your government of freedom and personal  
liberty, the church and its individuals  
have prospered splendidly."  
"Your country is smiling to a stranger,  
but no less amazing to its Catholics.  
Good Catholics in America, I believe, are  
good citizens for America. Their church  
teaches them that I am glad to have  
the privilege of blessing Catholics of  
New York and the United States on be-  
half of the Holy Father."  
Cardinal Vannutelli was asked whether

or the fact that in America church and  
state were kept separate was not respon-  
sible largely for the church's prosperity.  
He was also asked whether the United  
States did not deserve to have more than  
one cardinal, since in Catholic popu-  
lation and prosperity it outranks many of  
the old world countries which have long  
been close to the Vatican.

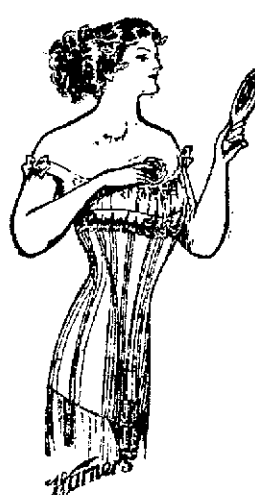

"Ah," he smiled, "these are questions  
for the Holy Father himself to answer.  
But he assured me keeps this lovely land  
constantly in mind, and is as proud of it  
as you are."

This was the first interview his em-  
bassy has granted in the United States.  
It was a hurried bit of a very busy  
day for him, but he was just as courtly  
about it as though the place had been  
Rome and the time one of ample leisure.

**THE SWINE OR THE PLOVER?**  
Ah me! I saw a huge and loathsome sty.  
Wherein a drove of wallowing swine  
were bared,  
Whose banquet shocked the nostril and  
the eye;  
Then spoke a voice, "Behold the source  
of lard!"  
I fled, and saw a field that seemed at first  
One glistening mass of roses pure and  
white.

With dewy buds 'mid dark green foliage  
nursed;  
And, as I lingered o'er the lovely sight,  
The summer breeze, that cooled that  
Southern scene,  
Whispered, "Behold the source of  
COTTOLENE!"

were called off, announcement was made that the lockout was declared off. All locked-out and striking bricklayers were instructed to return to work today.

**EVERYTHING IS READY FOR THE TAHOE RUN**

Two of the Press Cars to be used on the Lake Tahoe endurance run, a White Steamer and a White Gasoline Car.

**Rambler, Cadillac and Maxwell Are Entered by the Oakland Agents for the Long Grind**

By J. A. HOULIHAN.

Everything is in readiness for the biggest touring event of the season on the Pacific Coast, and tomorrow morning at 7:08 o'clock sharp the many entries for the Lake Tahoe and return endurance run will meet on the Creek route boat to be ferried over to Oakland, where the tour will be taken up.

Interest of the liveliest kind has been shown in this event since its first announcement some weeks ago, and dealers that had held off making promise of competing because of fear of having no cars on hand, are now sending in their names with a rush. Yesterday morning what was supposed to be the final entry list was published, but since then several additional entries have received permission to compete, among them being a Ford, which, as well as a competitor, will also act as official press and courier car. Among the late entries there are some Oakland cars, a Rambler by Captain McCauley, a Cadillac by Carl Christensen and a Maxwell by Melver & Becker. All told there are nineteen cars entered in the run.

**ALCO MAKING REMARKABLE RECORD.**

The Alco car won the Vanderbilt cup for the second time, achieved the most remarkable victory in automobile history in all sporting annals. No such repetition by the same car and man ever occurred, nor has it been paralleled in any sport. The average time by the Alco stock car was the fastest ever made in any long distance road race in the world by any racing machine. It was faster even by a fraction than the time in the Grand Prix race in Savannah in 1908.

**WHITE TO BE PRESS CAR.**

The press cars for the Lake Tahoe endurance run on next Saturday are to be furnished by the White Company. They are to be a White steamer and a White gasoline car, and besides carrying members of the press, will be considered regular contestants as well. The gasoline car, which is of a torpedo type, will be driven by C. A. Hawkins, coast manager of the White Company.

**BLOWS OFF FINGER WITH DYNAMITE CAP**

SANTA ROSA, Oct. 7.—Silvio Sartoris, a lad of 5 years, found a box of dynamite caps in an outhouse of a deserted cabin just south of town Wednesday afternoon and while conducting experiments with his find one of the caps exploded, destroying all but the thumb and little finger of his left hand.

Much mystery surrounds the presence of the caps in the building, which has not been occupied for several months. There were about 80 caps left of a box that contained 100 triple caps from the California Cap Company, San Francisco. The caps have been removed by Chief of Police J. M. Boyes, who is investigating to learn who left them in their hiding place. It is not believed the box has been in the place very long or they would have been discovered before.

**LODGE INDORSES PANAMA-PACIFIC**

State Encampment of Odd Fellows Elect Officers and Select Santa Cruz.

SANTA ANA, Oct. 7.—The State Grand Encampment of Odd Fellows yesterday chose Santa Cruz as the convention city for 1911. Sonora was the only other designation. Resolutions were adopted endorsing the holding of the Panama-Pacific Exposition in San Francisco.

The following officers were elected: Grand patriarch, S. B. Forre, San Leandro; grand high priest, F. E. Colley, San Jose; grand senior warden, Dr. George E. Davis, San Francisco; grand scribe, William H. Barnes, San Francisco; grand treasurer, Charles E. Benedict, San Francisco; grand junior warden, George F. Ward, Riverside; grand trustee, F. A. Wack, E. Planders, M. P. Forre, San Francisco; grand representative, one year H. F. G. Wulf, Sacramento.

**DISMISS APPEAL.**

For the third time the grand lodge considered the appeal of W. C. Baker, expelled from the Petaluma encampment for contempt. The action of the lodge was sustained and the appeal dismissed. Notice was given of the appeal to the Sovereign Grand Lodge.

Charters were granted to Ripon Encampment No. 117, and to Santa Paula Encampment No. 118. The per capita tax for the general fund was made 40 cents and the mileage fund 25 cents.

NAPA Oct. 7.—The State Grange held a large attended session yesterday afternoon and the convention endorsed constitutional amendment No. 1, providing for a new system of taxation, which is to be voted on at the coming election. The grange also endorsed the two amendments to be voted on soon, which will give \$100,000 to San Francisco for the Panama-Pacific Exposition.

The grange decided not to ally itself with the Farmers' Union, but they will co-operate along the same lines. Last night fifty and sixth degrees were conferred upon a large class and a splendid Pomona feast was enjoyed.

**CHICAGO IS STRUCK BY TWIN EPIDEMIC**

CHICAGO, Oct. 7.—Two hundred twin babies have been born in Chicago so far this year, as against 140 for the entire year of 1909, according to the figures given out at the office of the registry of births. The twin epidemic is not confined to any one locality, but seems to be general throughout the city.

**Made-to-Order Clothes At Common-Sense Prices**

Radical results are the outcome of radical methods selecting merchandise, figuring profits, making sales and backing up guarantees according to plans pursued for years—may do, for the merchant who is satisfied with present conditions—but won't do here. We intend to keep this shop forging ahead and are constantly developing our methods and improving our service in order to do it.

Right now, when thousands of men are in the clothes buying mood, we invite unprejudiced comparison of our offerings with those of other houses. Now, when stocks are full, sorted, is the time to decide which establishment offers you the best value for your money. We have never failed to satisfy the tailoring demands of any man who has ever visited our shop, and for the Fall Season we have not overlooked an item of the world's product of fashionable fabric.

No business argument is more convincing to a man than the constant practice of giving him more for his money that he can get elsewhere. This is the platform on which we solicit your trade. Does it interest YOU? FIT IS CERTAIN.

**Suits-to-Order \$18 to \$40**

**Investigate This Specialty**

Heretofore too much effort has been made in this city to sell "cheap clothes." We propose this season—right at the beginning—to put out a line of Suits and Overcoats at \$25.00 which will show clothes character so plainly that no question can arise as to their desirability and remarkable class. Beautiful fabrics in exquisite new shades; positively as good tailoring as can be found anywhere in the country. If you appreciate FINE CLOTHING, but cannot afford high prices, this is your opportunity. Including blue indigo serges.
